ACCELERATED READING CHALLENGE

Our reading challenge is up and running, and the kids are reading lots of books. It's great to see so many students checking out books and challenging themselves to be better readers. Books are also available electronically by going to the Renaissance Website: <https://global-zone51.renaissance-go.com/welcomeportal/704642>

Future City

A huge congratulations to the students of LGCS who participated in Future City, which is an Engineering Education Program for middle school students. These students worked tirelessly on this project, which was made entirely with recycled materials. LGCS placed **THIRD** in the state. Mrs. Geffre and Mrs. VenRooy volunteered a great deal of time to spearhead the program. Please take the time to thank the students and teachers for their hard work and success.

FLASH ALERT

LGCS has signed up for Flash Alert. This is a news alert system that distributes emergency messages for snow delays, closings or other emergency situations. You may sign up for Flash Alert using the following web address: www.Flashalert.net/id/LakeGeorgeCharterSchool

Once you are signed up, you will receive notifications, and information will also be posted on your local news channels. This is optional, as we will continue to use the Alma Student Information System.

A MESSAGE FROM OUR PRESCHOOL DIRECTOR

"It has been a great privilege to serve the children and families of LGCS for the past few years. I wish everyone at LGCS the very best." ~ Ms. Bobette

VALENTINE'S DAY CLASS PARTIES

The classes will have their Valentine's Day parties on Monday, February 14, at 3:00 p.m. Watch for information from individual teachers with details.

LEGO PROGRAMMING

Barbie Garnett from The Park County Extension Office is coming to the school weekly to teach Lego programming with some of the students. This is part of our STEAM program (Science, Technology, Engineering, Art and Math) The students are super excited about these activities.

BRRR! WINTER IS HERE

Please make sure your child (children) are dressed appropriately for the ever changing weather. Snow boots, hats, gloves and a warm jacket are an absolute necessity this time of year. We will go outside as long as the temperature is 20 degrees or higher.
