

Administration Goals/Priority Objectives

The purpose of charter school administration is to help create and foster an environment in which students can learn most effectively. All administrative duties and functions shall be appraised in terms of the contribution that they make to better instruction and to higher student motivation and achievement.

The Charter Board shall rely on its chief executive officer, the administrator of the charter school, to provide the professional administrative leadership that such a goal demands.

The design of the administrative organization shall be such that all departments of the charter school are part of a single system subject to the policies set forth by the Charter Board and implemented through a single chief administrator, the administrator.

The administrator of the charter school and of all divisions and departments is expected to administer to the units in accordance with Charter Board policy and regulations. However, the mere execution of directives cannot and should not by itself be construed as good administration. Vision, initiative, resourcefulness, leadership, and consideration and concern for staff members, students and parents are essential in effective administration of the charter school.
