SPRING FORWARD!

Remember to set your clocks one hour ahead before you go to bed on Saturday, March 12th. Daylight Savings Time goes into effect on the 13th.

First Grade Embryology Study

The First Graders will start incubating 18 eggs the week after spring break and plan on chicks hatching near April 18th. On day 8 of incubation Mrs. Barbie Garnett from the Park County Extension Agency will guide us in candling the eggs. It should be exciting, since at this stage in development we can see blood vessels forming, a dark spot which is the eye, and some movement. Later in April, please ask a First Grader for the most recent embryology update.

LOST & FOUND

Please check the lost and found in the office by the front desk. We are getting quite a collection of coats, hats, mittens etc.

Pebble Pups

Pebble Pups is a branch of the Lake George Gem and Mineral club for young people interested in rocks and minerals and science in general. The club is open to all students K - 12th grade. Our next meeting will be on March 16, 2022 at the Lake George Community Center starting at 6:00 pm. Our topic for this meeting will be Topo and Geological maps and how they are used. We welcome any new members and hope to see many of you at the meeting.

Betty Merchant
Team leader.

CONGRATS MR. M!

Our school counselor, Mr. Keith Marcantel received a \$500 Educator Award from the Educating Children of Color Organization. He has used the award money to order social skills curriculum materials from the Social Thinking Organization. Mr. Marcantel has been talking to students by invitation in classrooms about social skills. He recently has been talking to students about what the word GRIT means as part of developing our character. Congratulations Mr. M!

Virtual Job Fair

Lake George Charter School will be hosting a Virtual Job Fair Saturday, March 12th. Please Stay tuned for more details.
