

# BOARD BULLETIN

May 17, 2022 Vol 15

---

Here are some updates from this month's regularly scheduled board meeting:

- The school board has approved moving forward with our expansion project! The school would like to build an addition including 8 classrooms for middle school and high school students. Next steps include taking the proposal to Park County RE-2, as we are a public charter school within their district. Feasibility studies will then commence regarding water supply and septic systems as well as applications for grant funding to support our project. We'll try to keep the community updated as progress is made.
- The board has approved contracts for our returning support staff and new staff for next year. We look forward to having a fully staffed school, and things are shaping up in this regard. For open positions, please visit our website. Currently, job openings are posted for 1 elementary teacher and a preschool para. In addition, the board spent quite a bit of time adjusting salaries so that we may remain competitive, fair, and equitable for our teachers and staff. Step increases were subsequently approved based on the salary adjustments which had previously been passed.
- Next year we look forward to new and improved curriculum! The board approved a new curriculum which supports students' positive engagement with technology and teaches positive approaches to social media. We also approved a new curriculum to be purchased for literacy which will meet state standards. These new aspects of our students' education will ensure their continued success next year and beyond.

Our next regularly scheduled meeting is scheduled for Tuesday, June 21, 2022. There will be a work session at 4:30 pm to discuss updates on the building project, followed by the board meeting at 5:00 pm. We'd love to have you join.
